1. Thirty-eight single-engine aircraft were counted in front of the hangars at the Schoenwalde (N 53/3 66) airfield. The planes were of the same type as those photographed at the field on 17 March 1950 \*. Eight planes of the same type were parked in the north-east corner of the airfield. They made local flights, some in elements of two, between 10 a.m. and 1 p.m. at an altitude of 1,500 meters, with good visibility and a 7/10 base of cloud. The planes took off and landed individually.
2. An AA gun of about 37-mm caliber was emplaced on the southern edge of the landing field. The crew was quartered in a dwelling shed nearby. The barracks buildings at the field were occupied by air force soldiers and **armed** Soviet AAA soldiers.
